

OBJECTIVE

Dedicated career transplant ready to deploy my frontend skills. I love to take on complex problems and implement creative and concise solutions with JavaScript, React, HTML, and CSS. I have been building small applications with Scrimba for over a year, progressing to more complex projects.

TECHNICAL SKILLS

JavaScript (ES6+)	
React	REST
HTML5	Node
JSON	Git
CSS3	NPM
Responsive Design	
Mobile First Design	

EDUCATION

University of Arkansas 2020
Bachelor of Arts in
Communication

CERTIFICATES

Scrimba Front-End Developer Career Path (03/2022)

Over 70 hours of lessons and hundreds of hours of solving challenges and building projects. This course covers HTML, CSS, JavaScript, and React, including sections on working with APIs, CSS Flexbox and Grid, UI Design, and Responsive Design.

HarvardX CS50's Introduction to Computer Science (in progress)

This course covers the basics of computer science and programming, including concepts like abstraction, algorithms, data structures, encapsulation, resource management, security, and several programming languages.

PROJECTS

Travel Journal github.com/skuenzi/travel-journal

This app uses React to display past travel destinations, including a photo, short description, map link, and dates. This first part was easy. I am now working on implementing a form that stores new entries in local storage. This has required some work on the server-side of the app, which works perfectly in local development, but not in deployment.

Portfolio Website skuenzi.github.io

A single page React app to showcase my work. This includes a slider for my projects and a modal for project details. The site has a downloadable resume, email link, social medias, info about me, and some interesting scrolling features.

Tip Calculator skuenzi.github.io/tip-calculator

This is a small app built with Vanilla JavaScript as a confidence boost. It was challenging to break away from my React habits, but it gave me a chance to focus on basic logic and functionality.

WORK EXPERIENCE

Member Service Representative (12/2020 - 06/2021)

Randolph-Brooks Federal Credit Union Schertz, TX

Engaged personally with visitors to open new accounts and identify financial needs

Elected for training to learn about new financial products

Safely and competently handled a wide range of customer transactions

Bank Teller (09/2019 - 07/2020)

Arvest Bank Fayetteville, AR

Handled customer transactions as well as advising customers of available services

Adhered to policies and safety restrictions to protect coworkers, customers, and myself
